

Eighteen 3m half-round pressure-treated fence rails cut into 36cm palings, 10cm dia. Each cleaned off and coated with eco-friendly preservative.

The 156 palings were stapled together onto polypropylene strapping to form six rolls of 26 palings each.

How to make your own logroll for the Human Sundial - August 2010

The old rotten logrolls crowbar'd out, and the trench re-dug.

The new logrolls set in, levelled, and back-filled.

New membrane laid to suppress weed growth, and bark layer replaced. Voila!
